About

??

Testimoni produk dari pelanggan pasti akan cukup membantu pelanggan lain yang mau membeli produknya.

Goals and Tasks

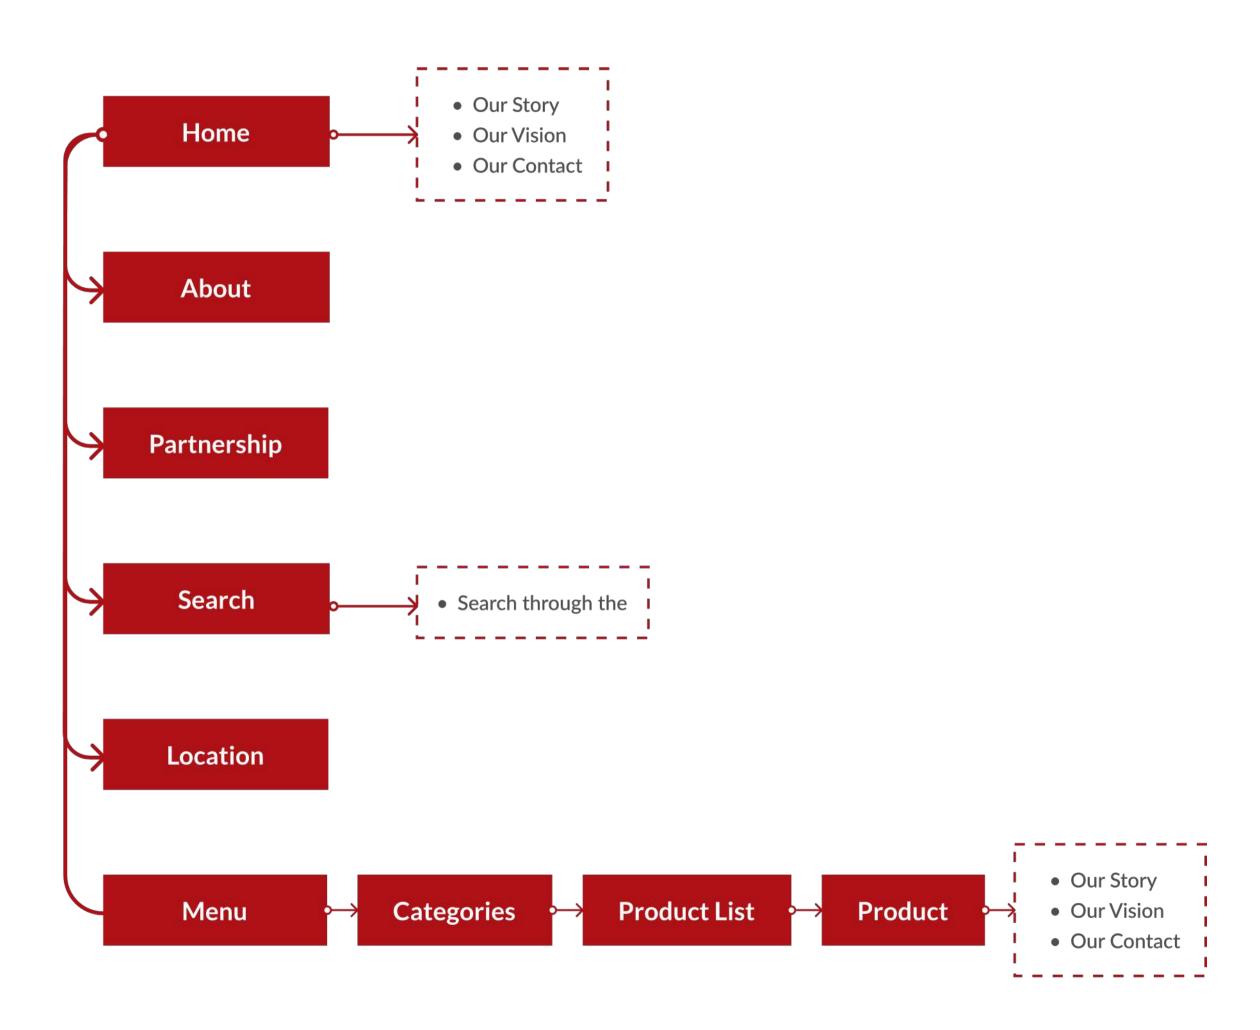

- Mencari tempat makan yang sesuai dengan harga.
- Mencari tempat makan yang mempunyai review dari orang orang untuk mempermudah pencarian makan.
- Mendapatkan informasi terkait tempat makan yang menjadi rekomendasi di sekitarnya tanpa perlu repot keluar dari rumah.
- Mengetahui berita terbaru terkait dengan perusahaan TahuTaisi Jeletot

Environment

- Terbiasa dengan penggunaan internet & Website
- Mempunyai perangkat elektronik berupa laptop
- Terbiasa dengan Bahasa Indonesia
- Situs web memiliki desain yang membuat user bisa paham dengan waktu yang singkat.

Information Architecture

Information architecture (IA) focuses on organizing, structuring, and labeling content in an effective and sustainable way.

Benchmark

Competitors in the market were analyzed to identify the strengths and weaknesses of each of them;

Strength

- Clean and intuitive design.
- Many features including outlet location
- There are many informations including all menu details.
- Website that

 can switch
 Language
 between Indo &
 English.
- Have features

 about showing
 media and
 achievement
- Have location features for many outlets.
- Can find
 owner contact
 in the website
- All Menu with all the informations

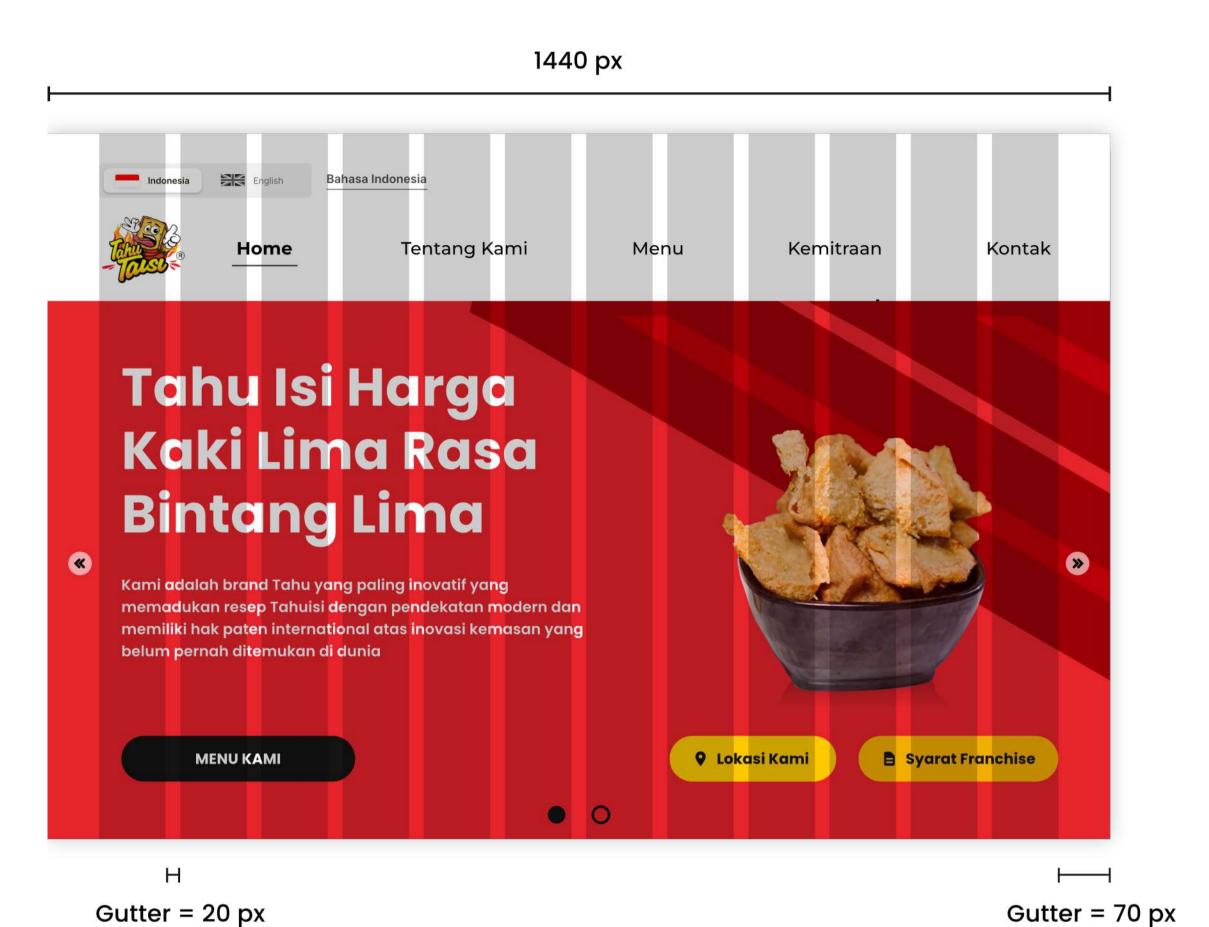

Weakness

- Doesn't provide any information about partnership.
- All the photo and documentation of burgerbros activity is not posted
- The color is too bright for users.
- There are no information about Contact person for business purpose.
- The menu is not clearly visible
- Overcrowd
 Design and it will affect the user's focus.

Design System

The design system is designed in order to create the components and visual identity of our digital product. The purpose is creating a uniform language among all the members of the team and a cinsistency between all the elements
